

GLOOM BLOOMS

No Bits Of Bitter

One dead old cat's tune on the radio
Poor heart of mine, take me down
To a radio ride in time
Sweetest drag of mine,
To burried peace of mind

Where's no harm nowhere inside
No bits of bitter
We just talked gentle free and kind

One van on an empty road
Evenings full of light,
Fast passing sights raptors and deers
Warm hearts and open minds
Private backseat lifes
The sun sets wide

And there are no hustles or fights
No bits of bitter
Will fill the gap that he's left behind

Soon gloom will bloom
And no one's here to make it disappear
Gloom blooms
I'm drowning in
And I'm feeling fine

Once were our days all that's left is mine
A couple of riffs
'Bout a radio ride
His song's done now
It's fading out
Turn off the radio

Goodness knows 'bout that yearnin' inside
No bits of bitter
Can stop my wondering 'bout what's life

Bar Of Gold

Wore some pair of shoes worn outside
An old fellow better knew
Said see you there
Tomorrow night

And I crawled into the
open bar that night
Tomorrow I knew would be
departure on Sunday night
So I crawled into the
operette bar that night
And a broken morning called
another day

A bar's something to cuff the past
Tomorrow's all night
Torn hearts and schemes for free
Fallen rain and starry eyes

And the moon prayed
to the open hearted night
A sailor man lost his poor heart
as one man died
And soon Mary would hold on
to what she's said
In a bar of gold all filled
with borrowed saints

Someday's Heart

Some days are like better nights
I fall and raise inside
For I know I'll fade away
For I always knew it's just inside that night
All I'm longing for

A warm heart makes a better night
Heart take me inside
Warm and take me back in time
Heart you know what never I could say
You know what I am looking for

Some days turn into better nights
Where hearts a moon inside
Some days I can fake in time
Falling water only knows what's on my mind
What I'm looking for

Pick Me Up

Hanging out at a mall
all day long ´till the fall
Watching folks buy and sell
Soon they´ll close but I chose
long before to ignore and adore
something better

No place is a better one than a mall
to clear your measures
No false dreams of better lifes
or meanful intimations

Pick me up at a different part
of same town
Pick me up get a different name
for same town
Pick me up at a different part
of same town
When it´s you then it´s good
It´s you when it´s good

Watching men come and go
some are fast others slow
Hanging ou at the lobby
For one heart and a mind
it´s so gentle and kind
to hang out at the lobby

No place is as calm as
easy chair at hotel lobby
No fuss puts you on while
cheering down at hotel lobby

Pick me up at a different part
of strange town
Pick me up get a different sight
of same town
Wake me up at a different part
of strange town
It´s you and it´s good

Early Bird Special

The break of dawn is blue and bright
The city's gone got out of sight

An early morning calls for an early bird
special ride

The open road lies grey and wide
My open heart is lost inside

An early morning call for an early bird's
special ride

Say who cares for what's done
Don'tcha dare to put me on
Snoozin's all that I want

Except an early bird special ride
that would last all day and night

The setting sun is deep red light
Another town same old sight

A late bird's caught in a stop and go
traffic hide

The cats look fab the chicks are sweet
The stage is stuffed as you can see

A late night bird's tryin' hard to play it smart

say who cares for what will come
Common dare to put me on
Playin's all that I want

Except an early bird special ride
that would last all day and night

Everybody's Tryin' To Be My Baby Now But I Don't Care

Your low one track mind
can't reach me inside

Burn your bills for thrills
and fake it all night

When I'm in the mood
might open up but now that I'm not there

Please realize
I just don't care

Everybody's tryin' to be my baby
Better make an escape

When everybody's tryin' to be your baby
Soon you'll start to fade

What for one more damn bore
Don't you pare

Please realize
I just don't care

Where were you when there was no one
who took care?

Except few friends who had the balls
not just to stare

One two fuck you
Cuz I'm gonna rock you
anyway

It's not you who tells me where to
stray or stay

When I'm in the mood
might open up but now
that I don't care

Please realize
You shouldn't

The Leash

I heard the rumor
she got humor
naw, that's a lie

Gals like her
I've seen them
cum and go

Well, I promise you
it won't take long
and she will put you
on a leash

You will never
be the same

Struggelin` for munny
Struggelin` for fame
but all in vain

And you will never
fly again

You better mind
the leash
